

YES ON 3

Transgender people should have the same basic protections as everyone else – to live their lives with safety, privacy and dignity. Protecting people from discrimination—including people who are transgender—is about treating others as we want to be treated. Vote Yes on 3 because we more love, respect and kindness and less fear, intimidation and discrimination.

Rosie's Place is a sanctuary for ALL women. Our philosophy strives to recognize the unique value in each woman, welcome, and embrace each one unconditionally. This philosophy drives us to know that transgender guests must be seen in this same light, to be protected, and cared for equally and unquestionably.

We believe ALL women have equal rights and should be safe and protected by law in public spaces. We need more acceptance, not fear and discrimination.
